PROFILE

Ambitious and detail-oriented finance student with a **strong foundation in accounts and finance,** currently completing the final semester of a Bachelor's degree. Proficient in **Python programming** and web development (HTML/CSS), bringing a unique blend of technical expertise and financial acumen. Adept at auditing and accounting principles, with a keen eye for precision and a commitment to driving efficiency. Eager to contribute dynamic skills to a fintech environment where innovation and financial excellence converge.

WORK EXPERIENCE

Developer

Accoladesigns 2022-2024

- **Developed a gaming quiz backend system:** Leveraged Python and front-end skills to conceptualise, design, and execute the application from inception to deployment, demonstrating a 5-month commitment to a comprehensive, user-centric project.
  - Initiated by creating of a comprehensive document delineating user and admin specifications, encompassing in-depth architectural specifics, segmented operational areas, and comprehensive functional delineations of the application's entirety.
  - Commenced the construction of the backend from ground zero by defining micro services, db classifications, functions as well as basic frontend code.
  - Leveraged a spectrum of Python libraries and functionalities including Flask, Pandas, Time, Twilio, OS, Random, and Requests, I orchestrated the codebase, harnessing the versatile capabilities offered by these libraries.
  - Collaborated with senior leadership to conduct exhaustive bug-fetching exercises, meticulously identifying and rectifying diverse code anomalies..
  - Code Management on GitRepo.
  - Through systematic debugging efforts, refined the application codebase to achieve near-flawless functionality, optimizing the software's performance and fortifying its integrity under the guidance of esteemed senior mentor.

- **Accounting knowledge:** I am currently in the final semester of my Bachelor of Accounts and Finance (BAF) degree, maintaining an exemplary cumulative grade point average **(CGPA) of 9.1.**

- **Website creation** for a fashion Brand: Designed and developed a informative website for a fashion design company, showcasing expertise in web design, user experience, and brand representation to drive online presence and engagement.

- **Logo Design** using Illustrator/Photoshop: Demonstrated creative prowess by crafting distinctive and professional logos using Illustrator/Photoshop, employing a keen eye for design and brand identity.

- **Excel-based Billing Systems:** Streamlined financial processes by creating meticulous billing systems in Excel, ensuring accuracy and efficiency in managing invoices and financial records.
